- 3).** This warranty does not cover color changes due to normal weathering (normal weathering is the damaging effects of sunlight and extremes of weather and atmosphere that may cause any colored surface to fade, chalk or become soiled or stained). Exposure to the elements will cause gradual, uniform change over time; the degree to which normal weathering occurs will vary depending on air quality, the building's location and other local conditions over which EasyRock has no control.
- 4).** This warranty does not apply to or cover defects or damage caused by or associated with a) defects in or failure of any part of the foundation or wall movement of the building, b) building settlement, c) earthquakes, tornadoes, hurricanes, or other acts of God, explosions, fires, riots or civil commotions or acts of war, d) falling objects, scraping, or damage to any part of the warranted products caused by physical blows, e) the hanging or suspension of weight, f) contact with or exposure to chemicals or foreign substances of a corrosive nature, g) contact with or exposure to water contaminated with lead, iron or other metallic substances, h) contact with metal or other fasteners not related to installation procedures, i) staining, j) any cutting, scoring or sanding of the products not related to installation procedures, k) improper installation or any installation of the products which does not follow product installation specifications, l) use of any installation materials other than those specified in the product installation specifications, m) use of products on structures which do not conform to local building codes, n) defects such as air pockets and blemishes not found on the finished textured surface of the product, and that are not visible or exposed to weather upon installation, o) damage caused by or during shipping and handling of the products, p) improper maintenance of the products which include the use of a power washer, q) damage caused by animals or birds of any kind, r) distortion or warping caused from exposure to excessive heat sources.
- 5).** This warranty does not apply to installation materials or any other associated materials that are not manufactured by EasyRock. The polyurethane products are closed cell content and do not absorb moisture or allow air to flow through. If the products are applied over substrate and the products joints and edges are sealed, it may cause moisture to accumulate behind the products and onto the substrate. It is the responsibility of the installer to allow for proper moisture drainage behind the products. EasyRock accepts no responsibility for any damage to substrates, or other materials, caused by moisture.
- 6).** In no event shall EasyRock's liability under this warranty exceed the replacement value of the defective products, nor shall EasyRock be responsible or liable for the cost of labor to remove and replace defective products, or for any special, indirect or consequential damages for loss to the building, its contents or material.
